Airhead (Airhead #1) by Meg Cabot

Meg Cabot

Meg Cabot expands her large fan Airhead (Airhead #1) base with this somewhat darker, extra mysterious novel - with no wasting any of her signature middle and humor. EM WATTS IS GONE. Emerson Watts didn't even are looking to visit the recent SoHo Stark Megastore grand opening. yet somebody had to glance out for her sister, Frida, whose crush, British heartthrob Gabriel Luna, will be making a Airhead (Airhead #1) song and signing autographs there—along with the newly appointed Face of Stark, teenager twiglet sensation Nikki Howard. How used to be Em to understand that catastrophe might strike, altering her—and existence as she'd identified it—forever? One weird and wonderful coincidence later, and Em Watts, regularly the tomboy, by no means the social gathering princess, is not any longer herself. Literally.

2d QUARTER December 21, 2008 Models. Airheads. comparable thing. By SITI HAJAR MOHD. KHAIRI 901 Airhead By Meg Cabot 337 pages 2008 New York, NY Point/Scholastic Hardcover \$16.99 ISBN-10: 0-545-04052-3 (Ages 12 and up) Models. Airheads. Whatever. they're perfect, faux and reside "The Dream" all women drool approximately -- to be famous, loaded with cash, and, of course, striking. Airhead through Meg Cabot zooms a bit into the longer term and offers perception on how know-how is improving. What if sooner or later you discover for you to be somebody you'll by Airhead (Airhead #1) no means anticipate in one million years, literally? From a wallflower to an selfish from one freak accident? It sounds too stable to be precise doesn't it? Emerson Watts reveals herself precisely in these -- fashion designer -- stilettos. She is the protagonist who will be thought of a "loser past repair" by way of the top of the Clique within the sequence via Lisi Harrison. may perhaps that truly ensue in reality? Puh-lease! It's technological know-how fiction stamped in all places it! keep paper and don't cut back bushes for this book! those 337 pages are so now not worthy spending a while one. Like, omigod this booklet used to be SO final year! There's additionally the all-too typical theme: forbidden love. Emerson seems to be a tom-boyish personality who has run out of time to admit her precise emotions for her top friend, Christopher, who she as fallen -- rather tough -- for. She hopes sometime that Christopher might discover how she is a woman like every other. How may she say that now that she's trapped...in a physique that's now not her own? Though, a lady with the identify Emerson may come sounding like a guy, no ask yourself Christopher has no longer made a "move" yet. may Emerson Airhead (Airhead #1) quite take that probability and jeopardize all these years of friendship? It's unlike she's alone, there's certain to be many folks -- young children -- who're as scared as she used to be to have her real emotions out within the open. as though it has no longer been Airhead (Airhead #1) pointed out already in books like Twilight and Romeo & Juliet. Having a standard subject matter that will get pointed out many times in well known books will be boring! It used to be so dull I fell asleep analyzing the book! Not to say how the writer makes every little thing look longer than it may be. There will be a twenty-eight web page pause that retains you striking because the character, negative Emerson, offers with the entire difficulties that sensational great versions need to care for (like posing and -- preserving nonetheless for nearly hours -- in a painful position). I'm yes readers locate model-life so fascinating that it buries the entire forbidden love scenario within the airborne dirt and dust within the suggest time. NOT! lower to the chase already! Models. The

worst position version to seem up to. you recognize them. They're thin and had every thing completely positioned and all performed for them. Their attractiveness -- displayed upon pages and pages of magazines, newspapers, advertisements and billboards -- is proven everywhere in the place. First of all, cease losing paper! Second, what sort of message may that effect women everywhere in the world!? types are just worthy up to any useful woman dwelling during this world. within the method society portrays those thin ladies, they appear to polish brighter than the common diamond. that's totally. Not. FAIR! it's going to absolutely have an effect on women -- in particular teenage ladies -- who're already susceptible approximately their self-image. Airhead via Meg Cabot is a poorly crafted piece of literature, the total plot Airhead (Airhead #1) is an avalanche of snow that buries the entire great things concerning the book. crucial a part of any book: is the plot. If a reader doesn't like it...then what's the point? It retains you captivated on the beginning, retaining you intrigued, feeding you bait. Then, an enormous bounce Airhead (Airhead #1) and it cuts you off leaving a flat and lame finale. even though it kills me to claim this approximately one in all my favourite authors, this outlandish suggestion will be trapped in the cavernous partitions of the author's personal spacious brain. it may by no means were published. keep yourselves from extra disappointment! In addition, a wierd and vicious message will get thrown into the air. Your grandma might most likely say, "it's the interior that concerns and not anything else." (You move grandma!) on the planet filled with glory, lights, digital camera and action: it's the skin that counts...the most.
