# Contested Arctic: Indigenous Peoples, Industrial States, and the Circumpolar Environment

Eric Alden Smith

The Arctic could be the final frontier of colonialism, the place commercial societies are aggressively exploiting the assets and undermining the social unity of indigenous peoples. In fact, this colonization of the circumpolar north is simply now attaining its complete momentum. One of the new conquistadores are oil corporation geologists, loggers, even source biologists, bringing not just business toxins but in addition cultural pollutants of their wake. For centuries, the aboriginal Arctic inhabitants have successfully used assets to fulfill modest human needs, constructing a different courting to Contested Arctic: Indigenous Peoples, Industrial States, and the Circumpolar Environment the land, water, and wildlife. Yet on the intersection of nationwide targets Contested Arctic: Indigenous Peoples, Industrial States, and the Circumpolar Environment and arctic ecosystems, local groups are being relentlessly squeezed among the ravages of source extraction and the usually naive agendas of environmentalists in city facilities a Contested Arctic: Indigenous Peoples, Industrial States, and the Circumpolar Environment ways away. This quantity explores a few of the significant threats to the Arctic setting and indigenous peoples' responses to those threats. Case stories speak about the rush for oil and fuel improvement in Canada, Alaska, and Russia; the poisonous legacy of the previous Soviet Union; land tenure conflicts in Russia; and natural world administration in Canada and Scandinavia.
