I enjoyed the assumption of the e-book - the secretary falling in love with the big, undesirable boss. However, this Double Standards took the "big undesirable boss" a bit too far! to start with - can Judith M. write a ebook that doesn't revolve round a big (but frequently silly and simply avoided) misunderstanding!? If so, i've got Double Standards but to learn one! Secondly - the hero used to be an a\*\*hole, via and through... A) He seduces a virgin, pretending that he relatively likes her Double Standards and desires extra from her than a one evening stand, purely to offload her the morning after! B) THEN, he is going directly to pursue her a couple of weeks later, whilst he realizes that he's nonetheless interested in her. He does not brain telling her that he merely sought after a one evening stand, yet is now coming for more... no strings attached...C) He additionally tells her that "casual intercourse is fine by way of him and -no double standards- he encourages ladies to do an identical - he's curious about equality of the sexes,,, UNTIL he thinks she's had intercourse with anyone except him! Double Standards Then he freaks out!D) once they eventually celebration (and Double Standards admit their love for every other), the instant he suspected that she tricked him - he damage and humiliated her past redemption! He didn't even supply her an opportunity to give an explanation for (and she behaved like an fool to even get herself into this misunderstanding, yet extra on her later...)! He had this lady , that he supposedly loved, on her knees , crying and begging him to hear her, whereas he refused and kicked her out within the rain! E) He reveals out the truth, reveals out simply HOW a lot he has wronged her - and all he has to do is purchase a few dear jewelry and appear at her door and say he's sorry?!?! Really??? Thirdly - the heroine is so naive and stressful that it was once challenging to learn about! She we could herself get seduced within the most evident manner after which acts all harm and pathetic... She claims she looooooves the hero after realizing him for just a couple of hours! Sleeps with him on day#2 after assembly him ... and expects a fortunately ever after! Then, while she starts off her "spying/not-spying" mission, she acts like a Double Standards whole ditz! What did Double Standards she anticipate was once going to ensue whilst he unearths out?! Why now not visit him and inform him the reality correct AWAY?!?! Why look ahead to issues to get so complex and for herself to seem so guilty?! She implicated herself such a lot of instances for no reason... may have simply advised him instantaneously they usually can have handled her scheming relative together! But all this
