French Foreign Legion 1872-1914 (Men-at-Arms #461) Legion 1872-1914 (Men-at-Arms #461)

Mike Chappell

This quantity covers the vintage French Foreign Legion 1872-1914 (Men-at-Arms #461) 'Beau Geste' period, of the French international Legion whilst the corps used to be accelerated in the course of the so much dynamic years of French imperial expansion. Legion battalions fought within the deserts and mountains of southern Algeria and Morocco, in addition to within the jungles of North Vietnam, West Africa and Madagascar. Their different uniforms and equipments for every interval and theater are illustrated and examined. Written through a number one professional at the French overseas Legion, this can be a colourful advent to the interval whilst the Legion cast their mythical struggling with reputation.

this is often the 1st booklet within the 3 units of the FFL by means of Martin Windrow; it has to be learn including Osprey's "French international French Foreign Legion 1872-1914 (Men-at-Arms #461) Légionnaire 1890-1914" of the Warrior sequence and "Our pals underneath the Sands: The French international Legion in France's Colonial Conquests 1870-1935", a 695-pages lengthy hardcover book. This ebook is a wonderful addition to the Osprey Man-at-Arms sequence and for the literature round the French overseas Legion. The interval studied is that of the "Golden Age" of the FFL, while it helped France to construct its colonial empire. After the Franco-Prussian War, the French international Legion was once the most powerful and the one all-volunteer white infantry regiment within the French Army. The Legion could struggle in remote battlefields in Algeria, French Foreign Legion 1872-1914 (Men-at-Arms #461) Vietnam, West Africa, Madagascar, the "Sud-Oranais" and Morocco. The legionnaires could end up so powerful that the Legion used to be progressively tripled in dimension to twelve huge battalions. Martin Windrow explains how - and why - the Legion fought how it did, and the way it received any such acceptance for patience and bravery. Following the layout of the Men-at-Arms series, this e-book describes the organization, campaigns and French Foreign Legion 1872-1914 (Men-at-Arms #461) uniforms of the Legion throughout the period. It has prime quality colour plates from Osprey legend Mike Chappell, black and white pictures, maps and drawings. a typical sight in these pictures is that just about everyone has a moustache. As expected, Mike Chappell makes a good task in featuring the Legion's well-known uniforms, particularly the "blue-iron grey" greatcoat ("capote") and the képi with white conceal and neck-flap. The representations are good balanced among crusade dress, marching order, barracks costume and and cerimonial dress, like a neatly dressed corporal in plate H2, with impeccable parade uniform and medals. While the officials within the Metropolitan French Foreign Legion 1872-1914 (Men-at-Arms #461) military thought of the colonial infantrymen to be professionally ill-educated and socially inferior "cowboys", the colonial military observed greatly extra lively provider and thought of the Metropolitans as inflexible and snobbish "book-soldiers". The Legion, a part of the colonial army, confirmed unrivalled persistence and hardihood, turning into one of many major tools of French colonial expansion. The courageous and tough males of the French overseas Legion are good represented by way of this book, that's a very good addition to someone attracted to army history, modelling, and for the FFL enthusiast, it's a must-have.
