# Noticia de un secuestro by Gabriel García Márquez

Gabriel García Márquez

Era, en efecto, el automovil de Maruja. Habia transcurrido por lo menos media hora desde el secuestro, y solo quedaban los rastros: el cristal del lado del chofer destruido por un balazo, l. a. mancha de sangre y el granizo de vidrio en el asiento, y los angeles sombra humeda en el asfalto, de donde acababan de llevarse al chofer todavia con vida. El resto estaba limpio y en orden.

(view spoiler)[I first chanced on Gabriel Garcia Marquez in excessive school, the place "Chronicle of a demise Foretold" used to be required reading. i have been an avid fan ever since. I by no means heard of "News of a Kidnapping", yet right here in Baku, the place now we have restricted entry to English books, i used to be satisfied to acknowledge a well-known identify mendacity at the shelf. i used to be no longer disappointed. In fact, i am shocked that folks Noticia de un secuestro should not raving approximately this book! it is a non-fiction masterpiece that at the beginning makes a speciality Noticia de un secuestro of the Noticia de un secuestro abduction of 2 public figures in Colombia, Maruja Pachon and Beatriz Villamizar, yet finally ends up telling the tale of the city struggle among the govt. and Pablo Escobar, a drug lord and a narco-terrorist, and the Noticia de un secuestro negotiations that Alberto Villamizar, the husband of a hostage and politician, is going via to forge peace. listed below are a few notes at the book--\*The first few chapters are a section tricky to follow. Marquez introduces various humans so I needed to sift via names and make psychological notes. it truly is as though i used to be given puzzle items that I had but to place together. The persistence is worthy it.\*I additionally needed to step again simply because this used to be a distinct Marquez from the single i used to be accustomed to. This e-book did not have many lines of magic realism. It was once a actual story, well-researched with weird and wonderful yet lifelike details. \*Marquez indicates and not tells, leaving the reader to shape his/her personal reviews and inferences. there have been Noticia de un secuestro unforgettable info like Marina, a gorgeous socialite and hostage, who always filed her nails. Or the majordomo and spouse who stored condominium for Maruja yet could visit her for suggestion after they had marital issues. Or how Pancho Santos again from his captivity the place he had won Noticia de un secuestro extra weight and looked as if it would glance more fit so a relative commented in jest that maybe he wanted another 12 months in captivity for it to be believable. And the unending Noticia de un secuestro lentils that the prisoners have been served!\*I grew a great deal hooked up to the characters--especially Alberto who's a hero. This wasn't only a tale approximately kidnappings. It was once a narrative approximately how Alberto enjoyed Maruja a lot that he may cross with out bodyguards and meet with drug lords and buddies of Pablo Escobar, to barter the discharge of his wife. Maruja additionally knew how a lot Alberto enjoyed her and relied on he used to be doing every thing he might in spite of the shortcoming of communique among them.\*Marquez additionally made me now not hate the guards and gangsters who have been lower than Escobar's payroll. He was once capable of make me see that they have been humans too with households that they had to support. Ironically, those guards have been prisoners too who constructed attachments and friendships with the folk they kidnapped. a few of Maruja's guards performed Nintendo and requested her for support as soon as she bought out. This softened my

middle in the direction of them.\*Being a prisoner appears a operating subject during the book. Maruja, Beatriz, Marina, Pancho Santos and the opposite hostages have been prisoners. The guards and gangsters and legal professionals have been prisoners, and ironically, Pablo Escobar, himself was once a prisoner who used to be consistently petrified of the police and his enemies gunning him down.\*The e-book did not go away me depressed approximately narco-terrorism. i used to be moved at how a lot some of the characters sought after peace--from Alberto Villamizar to the newshounds and celebrities who campaigned relentlessly for the discharge of the hostages, to the eccentric priest whom Pablo Escobar financially supported. It used to be a e-book approximately peace which occasionally comes in addition to unorthodox negotiations which are stranger than fiction.\*This ebook made me take into account why Gabriel Garcia is not only an excellent artist. He writes to move, to alter our hearts, and even perhaps our minds, a good way to turn into higher those that have empathy and a middle for others, and perhaps alongside the way, opt for peace over judgment.
