

ALICE BORGWARDT

THE  
DRAGON  
QUEEN  
THE TALE OF GLESTHEI

---

# The Dragon Queen (Tales of Guinevere #1)

Alice Borchardt

Arthur became and strode towards us. He was once magnificent, and that I won't ever overlook that, in that The Dragon Queen (Tales of Guinevere #1) moment, I first enjoyed him. and that I believe--had I identified what the longer term held for us: the entire trouble, torment, battle, and grief of our lives--I nonetheless think that I might have yielded my center into his retaining as I did then . . . In a sweeping epic of the imagination, Alice Borchardt enters the wondrous realm of Arthurian legend and makes it her own. The Dragon Queen is the 1st quantity in a trilogy of novels that boldly re-imagines Camelot--and casts Guinevere as a shrewd, strong-willed, magical warrior queen. Born right into a global of negative strife, the place struggle is continuing and guns are by no means faraway from the arms of fellows or women, Guinevere, daughter of a strong pagan queen, is a risk to her humans and a prize to the feared sorcerer Merlin. despatched into hiding, she grows up below the safety of a shapeshifting man-wolf and an ornery Druid. yet even at the distant coast of Scotland, the place dragons feed and watch over her, she isn't secure from the all-seeing excessive The Dragon Queen (Tales of Guinevere #1) Druid Merlin. He understands the younger beauty's destiny, and he'll cease at not anything to avoid what has been foretold. For if Guinevere turns into Queen and Arthur, King, they'll deliver a peace to the land that would go away the power-hungry Merlin a contracted magician in a weary cloak. Yet Guinevere possesses energy of her own--dazzling energy to rival even that of Merlin. Summoned from her domestic by way of forces she can't fathom, she travels from the Underworld to an Otherworld of the Past, at every one step calling on historical powers to assist her way. whilst younger Guinevere proves her mettle to an embarrassed Merlin, even her devoted dragon protectors can't hinder the evil that the sorcerer rains down. looking revenge, Merlin banishes Arthur to a global from which the one break out is death. Now Guinevere needs to face Merlin's wrath with out him--and end up that she is helpful of being Arthur's Queen. From the glass-roofed nice corridor at Tintigal to the luxurious backyard forts of Wales, Alice Borchardt info the travels of Guinevere in a wealthy textile of prose. The Dragon Queen is a singular of significant emotional depth, undying romance, and soul-stirring adventure.

this is often written through Anne Rice's sister, and that I needs to say I'm even more of an Anne Rice fan than an Alice Borchardt fan. My knowing is that this ebook used to be speculated to be the 1st in a chain however the writer handed away, so we'll regularly be left striking until an individual takes up the mantle and writes a sequel. maybe if she left notes at The Dragon Queen (Tales of Guinevere #1) the back of on her plans, one among her young children or her nephew can do this. The publication itself is 467 pages. I've got learn different books this lengthy that I plowed via and loved immensely, yet this one took me over 7 months to finish. the start used to be a piece slow, the center was once intriguing and carried me into The Dragon Queen (Tales of Guinevere #1) the early three hundred pages after which it turned sluggish again. So slightly a curler coaster by way of plot. I just like the suggestion of Arthur and Guinevere offered during this ebook in lots of ways, the place she is a painted humans warriorress groomed for the dragon throne and is taken into account a probability to Merlin and Igrane, Arthur's mother. Morgana here's the "good guy" who helps Uther and Arther, rather than being a miserable, jealous outdated hag as portrayed in lots of stories. The e-book is wealthy with Celtic lore and

---

historical past and traditions, notwithstanding a few of it really is strange and should be the imaginings of The Dragon Queen (Tales of Guinevere #1) the writer -- it truly is fantasy. However, the books occasionally acquired TOO slowed down in description and dialogue of existence again then. The helping characters of Kyra, the grey Watcher/Maeniel who can form swap from guy to wolf, Dugald the Christian Druid, and her wolf partners mom and Black Leg are all attention-grabbing and likeable. Additionally the raven provides loads of comedy while issues get tedious. I love additionally the nature of Guinevere who's referred to as by means of a number of adaptations during this novel. Arthur, at the different hand, is extra dimensional together with his warrior-honorable-king The Dragon Queen (Tales of Guinevere #1) persona. He fights, he stands for honor, and he faces demise with no fear. However, that is so far as he develops. THERE ARE SPOILERS BELOW!!! The plot is sort of complicated at points. Plot-wise we're left with Arthur spending some assessments yet nonetheless caught in a few nether international I will not fairly understand. He handed the assessments of fish and bird, yet how are those exams and of what? Is that this the summer season land, but in addition the land of King Bane and of death? But the Lord Dis is King of the underworld, and those aren't the same. I am stressed -- are there lores here? After which Guin going off to a similar island two times and consulting with the mysterious wise-ones of ways prior who -- did I comprehend this appropriately are aliens???? Or did I misinterpret and they have been from an previous time of the dinosaurs sooner than all was once burnt up and Bane escaped to establish this summer season land/land of the dead. And why does Guin prove in a prior time referred to as by way of the Goddess Athena/Diana to struggle a monster who's additionally only a faun who sought after too much. Did the faun promote his soul to the devil? I did not get this stuff very well. I discover the ebook is written at issues to be very ethereal, as the characters think they're in a dreamscape/not fact -- that is true. So I suppose this can be intentional, yet The Dragon Queen (Tales of Guinevere #1) total extra confusion than anything for those plot issues which take The Dragon Queen (Tales of Guinevere #1) in most of the book. The strengths of the e-book as I discussed have been the secondary characters round Guin, the political/social/historical again drop of the Celtic life, and likewise the transition that the British Isle suffered going Celtic independence to Roman rule to liberating itself from that and being invaded by means of Saxons or even Gauls. Additionally the transition from Celtic magical ideals and practices to Christianity because the major belief. I have learn this environment in different Arthur-Guinevere stories like Marion Zimmer Bradley's condo of Avalon. I feel she does a greater task of telling the story and we really get answer in that story. If there The Dragon Queen (Tales of Guinevere #1) were a sequel, or is one, I am not convinced I might learn it. I believe simply to determine what happened, and provided that it was once much shorter. Lengthy books may be great, yet this one simply was once too lengthy for what it delivered.
