## Wein und Brot (The Abruzzo Trilogy #2)

Ignazio Silone

Erzählt wird die Geschichte des jungen intellektuellen Widerstandskämpfers Pietro Spina, der, vom faschistischen Regime abgestoßen, sich den Kommunisten zuwendet. Doch auch dort erlebt er Enttäuschungen. Immer wieder muß er vor den Schergen Mussolinis fliehen. Schließlich Wein und Brot (The Abruzzo Trilogy #2) gibt er sogar seine Identität auf und schlüpft in die Rolle des Priesters Don Paolo Spada. Mit den alltäglichen Sorgen der abruzzesischen Bauern konfrontiert, gerät Spina zunehmend in Widerspruch zur kommunistischen Parteiführung. "Wir alle leben provisorisch...Jeder von uns denkt: Jetzt, in diesem Augenblick, ist das Leben nicht erfreulich, guy muß sich irgendwie arrangieren, guy muß auch Demütigungen hinnehmen, aber alles ist nur vorübergehend. Eines Tages wird das wahre Leben beginnen... So vergehen die Jahre, und vielleicht werden wir sterben, ohne wirklich gelebt zu haben... guy muß handeln. guy Wein und Brot (The Abruzzo Trilogy #2) muß sagen: Genug. Ab heute.", Zitat aus "Wein und Brot"

Ignazio Silone, a founding member of the Italian Communist celebration and a virulent anti-fascist, was once dwelling in exile in Switzerland within the mid-1930's. Mussolini used to be on the peak of his powers and the Italian invasion of Ethiopia used to be very strongly supported through a majority of his countrymen. If this wasn't discouraging sufficient for a guy like Silone, he had additionally misplaced religion within the Communist occasion as a achievable substitute to fascism. Josef Stalin had started purging the get together of his own enemies, appearing in Silone's view as a "Red-Fascist" dictator. it's out of this darkish second in historical past that Bread and Wine used to be born. It is the tale of Pietro Spina, himself an exiled communist, who returns to Italy to once more advertise the revolution. Hunted relentlessly, he disguises himself as a clergyman and remains within the distant mountain village of Pietrasecca until eventually his well-being improves sufficient to permit him to proceed his progressive activities. whereas residing with the dirt-poor peasants of Pietrasecca, Spina discovers that Politics in general, be they fascist or communist, carry little curiosity for the poor. however Spina maintains to do what he feels is right, even after falling out with communist leaders in Rome. Despite the awful subject material the unconventional continues a reasonably gentle tone. Silone tackles the various similar subject matters that George Orwell (another dissatisfied socialist writer) did, yet Silone continuously deals desire and humour the place Orwell's imaginative and prescient is frequently despairing. an outstanding representation of the variation is located in how they either speak the concept a totalitarian regime will locate it beneficial swap army alliances usually and needs to persuade the population of the inherent evil of an enemy that used to be simply the day past a valued friend. In 1984, Orwell portrays the 3 global governments in consistent nation of two-on-one war. while the alliance shifts to new partners, the Ministry of fact easily tells the population that this is often how it has constantly been and background is rewritten to help the present. whereas powerful and scary Orwell's procedure has a minor flaw; it doesn't clarify why the shift in alliances occurred within the first place. Silone, at the different hand, exhibits how such historic revisions are occurring within the actual international correct now. Spina (in the guise of the priest Don Paolo) converses with a few boys: 3 boys got here to Don Paolo's room and requested him, "Who's the enemy now?" "What enemy?" requested the stunned priest. "The

---

hereditary enemy," acknowledged one of many boys. The priest didn't understand, or at the very least pretended no longer to. "We consistently have facets in our games," defined the boy. "The Italians are on one part and the hereditary enemy at the other. for a very long time the trainer advised us this was once France or Yugoslavia. Then she advised us Germany, then Japan. This morning she said, 'Boys, the recent hereditary enemy is England.' yet within the schoolbooks there is a bankruptcy with the name 'Italy's centuries-old friendship with England.' Now we do not comprehend something at all. who is wrong, the schoolteacher or the book?" "The book," stated Don Paolo. "It used to be published final year, so it truly is out of date." Although Silone's *Wein und Brot* (The Abruzzo Trilogy #2) straightforward variety is effective, the unconventional isn't really with out it truly is flaws and especially in the direction of the top there are a few overly sentimental passages. nonetheless it holds jointly adequate to maintain even the main informal reader engaged and has a fresh sort that has stood the attempt of time. mainly it's a traditionally attention-grabbing work; an impassioned plea opposed to melancholy while it seemed the area was once figuring out among types of totalitarianism.
